WRAGG'S

FLUTE PRECEPTOR,

OR THE WHOLE ART OF PLAYING THE

GERMAN FLUTE

RENDERED PERFECTLY EASY TO EVERY CAPACITY, ON
PRINCIPLES ENTIRELY NEW,

AND BY WHICH ANY ONE WHO HAS A TASTE FOR MUSIC MAY SOON ACQUIRE A KNOWLEDGE OF THAT INSTRUMENT

WITHOUT THE AID OF A MASTER;

TO WHICH ARE ADDED A SET OF

PROGRESSIVE LESSONS AND SIXTY-FOUR ORIGINAL DUETTS,

ARRANGED IN THE MOST USEFUL KEYS, EACH OF WHICH IS PRECEDED BY AN EASY PRELUDE, AND AN EXPLANATORY NOTE,
BY WHICH THE PUPIL IS ENABLED TO PROCEED, BY PROGRESSIVE STEPS, FROM THE EASIEST TO THE MOST
DIFFICULT KEY; A SET OF ARIETTAS; A PLEASING COLLECTION OF SCOTTISH AND
OTHER AIRS; A SET OF PRELUDES IN THE VARIOUS MAJOR AND
MINOR KEYS; AND AMPLE

INSTRUCTIONS FOR AN EIGHT-KEYED FLUTE.

TOGETHER WITH A CHOICE COLLECTION OF FINISHING EXERCISES, CONSISTING OF
ELEGANT EXTRACTS FROM CELEBRATED AUTHORS, WITH EMBELLISHMENTS.

[Never before published in this country.]

FROM THE FORTIETH LONDON EDITION.

BOSTON:

PUBLISHED BY OLIVER DITSON & CO., WASHINGTON ST

NEW YORK: S. T. GORDON. PHILA.: BECK & LAWTON. CINCINNATI: TRUAX & BALDWIN.

WRAGG'S IMPROVED FLUTE PRECEPTOR.

Of late years the study of the German Flute has been more attended to by gentlemen than any other instrument whatever: nor, indeed, is it to be wondered at, when the natural tone of that instrument is so soft and pleasing to the ear, and so easily acquired, compared with the Violin and many other instruments. If a person arrive at a state of mediocrity only on the German Flute, he is sure to please; but on the Violin, and many other instruments, he must spend a great deal of time, and labor very hard, or he will never gratify his hearers, nor please himself.

In order, therefore, to acquire a knowledge of the German Flute, the first thing you ought to attend to is the placing the Flute properly to your lips; to do which, you must take the first joint of your instrument only, and place the embouchure, or hole thereof, to the upper part of your under lip, drawing that and your upper one even with each other, and extending them a little towards each ear, leaving a small aperture for the wind to pass freely into your instrument.

The Flute being placed, and the lips formed as thus described, you should now try to acquire the intonation, or method of sounding, by inclining the embouchure a little inwardly or outwardly, till you can do it with ease, which is not done by forcing too much wind into the instrument, but by moderately blowing into the embouchure, or hole of the Flute. When you can procure a clear sound, put the remaining parts of your instrument together, and pay particular attention to the following rules for the

POSITION OF HOLDING THE FLUTE.

As your future tone, with respect to firmness and steadiness, depends in a great measure on holding your instrument properly at your first setting out, and as your execution, in some measure, depends also thereon, I shall endeavor, in as plain and laconic a manner as I can, to lay down some general rules for your information, to which you must particularly attend.

First. Your Flute should rest nearly on the middle of the third joint of the first finger of your left hand, placing the thumb of the said hand a little below the first hole, on the side of your instrument, which will cause the thumb, if your instrument have the additional keys, to lie just above the A sharp, or B flat key.

Secondly. The thumb of your right hand should be placed exactly under the fourth hole, with the little finger of the said hand just above the D sharp, or E flat key, which is the key just below the sixth hole of your instrument.

Thirdly. The instrument being thus held, you should endeavor to sustain it, when placed to your lips, as steadily as possible, with every finger off, at a small distance, from the holes, (this position often occurring,) and in a parallel direction with your instrument, the first finger of your left hand being a little curved, the second more so, and the third finger lying nearly straight, the first and second fingers of your right hand not quite so much as those of the left, and the third finger of this hand also nearly straight, holding the Flute at the same time in a horizontal direction; when you can do this, you should endeavor to produce a free tone, which, when acquired, will produce C sharp, or the seventh note of the following scale or gamut.

Fourthly. You may now proceed by putting down the first finger of your left hand, and trying to sound that note, which is B natural, and the sixth of the following scale; then put down the second finger of the same hand, which will produce A natural, or the Fifth of the scale; lastly, put down the third finger of the aforesaid hand, which will produce G natural, or the fourth note of the scale.

Fifthly. When you have accomplished the foregoing, proceed with the three remaining fingers of the right hand as follows, viz.: Put the first finger of that hand down, pressing at the same time the D sharp key with your little finger, which key is just below the sixth hole of your instrument, and which note, when sounded, will produce F sharp, or third of the scale.

Sixthly. Put down the second finger of your right hand, which will produce E natural, or the second of the scale; but care must be taken that you do not force too much wind into your instrument for this note; if you do, it will be too sharp.

Seventhly, and lastly. You may now proceed by putting down the third finger of your right hand, which will produce D natural, or first of the scale.

And here great care should be taken to bring out this note in as full round tone as you possibly can; but as this is not so easily accomplished by every one, I think it would not be amiss, before we proceed further, to make a few observations relative thereto. If, therefore, you should find great difficulty in bringing out this last note, you may attribute it to one or more of the three following causes:—

First. If too much wind is forced into the instrument at this early period, you may bring out a tone too acute, and nearly approaching in sound the second or middle D of the following scale or gamut.

Secondly. If the lips are too much contracted, the same effect, most probably, will be produced.

Thirdly. If you be not careful in stopping every hole closely, you will not be able to bring out the said note at all; and you will find you are only wasting your time, without attaining the end proposed.

Now, in order to guard against these three evils, you must take care that your fingers are placed firmly on the holes, suffering no air to pass into or out of any of them; then you should endeavor to inject the wind (your lips at this time not being much contracted) gradually into the embouchure, when you will find, (if these rules are strictly attended to,) after a little practice, that you will be able to bring out the said note D natural, which at first may, perhaps, be brought out too weakly; in order to remedy which, you must force the wind a little more strongly into your Flute; but this must be done very sparingly and by slow degrees till you can produce a full tone. When you have made this progress, and can tongue each note distinctly, which is done by pronouncing the syllable too in the Flute, you may then proceed to the following gamuts.

But before I take my leave of the student, previous to his entering on the gamut, I earnestly entreat him to pay particular attention to the following short remarks; which are, to endeavor to preserve a uniformity of sound, by holding the Flute as steadily as possible when placed to his lips; as the least unsteadiness of the hands will produce, while playing, a different pitch of the notes, and he will find that they will be sometimes too flat, and sometimes too sharp, according as the embouchure or hole of the Flute is inclined inwardly or outwardly. He should also be particularly careful in keeping his fingers exactly over their respective holes, not suffering them to be lifted too highly, in order that they may stop the more readily, and prevent any motion of the Flute while placed to the lips, which would be the case if rules were not attended to.

And now, having said as much as I think necessary, I will, for the present, take my leave of the pupil, by wishing him, with all my heart, speedily safe through the following gamut.

WRAGG'S FLUTE INSTRUCTOR.

N. B. If you play on a four keyed Flute, you must take no notice of the two bottom keys in the above Scale ; and the first Note affected by the additional Keys will then be E \sharp or F \sharp , which you will find in the third Column ; and for the last Note in this Scale, refer to the following one. The rest of the Notes which you may meet with in this work, in the course of your practice, which are not to be met with in the two preceding Scales, you will find in the following Scale also.

CHROMATIC SCALE OF ALL THE NOTES, TO BE REFERRED TO OCCASIONALLY.

Left.	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3	1 2 3

The Pupil, before he proceeds any further in the Lessons contained in this work, should first make himself well acquainted with the different musical characters, contained in the three following pages.

FLATS, SHARPS, AND NATURALS.

There are five characters made use of in music, to denote Semitones, or half Notes; viz.: a Flat, a Double Flat, a Sharp, a Double Sharp, and a Natural.

Flats.	Double Flats.	Sharps.	Double Sharps.	Naturals.

A Flat placed before any Note makes that Note half a tone lower; a Double Flat, two half tones lower; a Sharp makes it half a tone higher; a Double Sharp, two half tones higher; and a Natural reduces any Note, made Flat or Sharp, to its primitive state.

Flats and Sharps placed at the beginning of any piece of Music, Song, &c., affect all the Notes upon the line or space on which they are placed, through the whole piece, above and below, unless contradicted by an accidental Sharp, Flat, or Natural, which only operates in the same Bar where it is placed, unless the last Note of a Bar, affected by such accidental Sharp, Flat, or Natural, is the same as the first Note in the Bar following, in which case the first Note in the following Bar is affected also.

TIME.

TIME is of such consequence in Music, that, unless you thoroughly understand it, you cannot be said to be a good Musician; for if you arrive at the utmost execution on any instrument, if you want a true and equal Time, you, in fact, might as well not play at all. Time is divided by Bars, and each Bar is divided into two, three, four, &c., equal parts, and is called either Common Time or Triple Time. Common Time is divided into a number of equal parts in each Bar, viz.: four Crotchets, Quavers, &c., and is to be known by the following signs, viz.: C, $\frac{C}{2}$, $\frac{C}{3}$, 2; the first of which denotes the slowest sort of Common Time; the second, a degree quicker; and the third and fourth marks denote a quick movement; and they are intended to tell the performer, that the music to which they are prefixed contains a Semibreve in each Bar, or as many other Notes as are equal thereto. There is also a sort of Common Time marked

$\frac{2}{4}$, containing two Crotchets in a Bar; and four other sorts called Compound Common Time, marked $\frac{12}{4}$, $\frac{12}{8}$, $\frac{6}{4}$, and $\frac{6}{8}$; the first containing twelve Crotchets, the second twelve Quavers, the third six Crotchets, and the fourth six Quavers, in each Bar. The upper figure denotes the number of Notes in each Bar, and the lower the value of each Note, with respect to a Semibreve.

Triple Time runs in an uneven number of parts in each Bar; as three Minims, Crotchets, Quavers, &c., and is known by the following signs, viz.: $\frac{3}{2}$, $\frac{3}{4}$, and $\frac{3}{8}$; the first denoting three Minims in a Bar, and is the slowest; the second three Crotchets, and is a little faster; the last three Quavers, which is the quickest. But these different marks are now regulated by technical terms, such as ADAGIO, LARGO, ANDANTE, &c., &c.

There are two other sorts of Triple Time, called Compound Triple Time, marked $\frac{9}{4}$, and $\frac{9}{8}$; the first containing nine Crotchets, and the last nine Quavers in a Bar.

CHARACTERS OF THE NOTES, AND THE PROPORTION THEY BEAR TO EACH OTHER.

There are six Notes made use of in Music, viz., a Semibreve, Minim, Crotchet, Quaver, Semiquaver, and Demisemiquaver. See their characters.

1 Semibreve is equal to 2 Minims, or 4 Crotchets, or 8 Quavers, or 16 Semiquavers, or 32 Demisemiquavers.

1 2 3 4 $\frac{1}{2}$ $\frac{1}{2}$ $\frac{1}{4}$ $\frac{1}{8}$ $\frac{1}{16}$ $\frac{1}{32}$ of a Semibreve.

By the foregoing table you will find that the thirty-two Demisemiquavers are to be played in the time of sixteen Semiquavers, of eight Quavers, of four Crotchets, of two Minims, or of one Semibreve. But as there cannot be any fixed and absolute durations, for the foregoing Notes, it must be the measure and movement of the Piece, Song, &c., that must determine the exact length of the sounds.

N. B. There is another Note sometimes made use of in modern Music, called a Quadruple Quaver, and is half the length of a Demisemiquaver; it has four ties, and is but seldom used.

It often happens that a Lesson, Air, or Song, is interrupted in some part by a sign or signs, called Rests, or Pauses; for the characters and explanation of which see the following table:—

Semibreve Rest,	Minim,	Crotchet,	Quaver,	Semiquaver,	Demisemiquaver,	Quadruple Quaver.
A Bar Rest,	2 Bars,	3 Bars,	4 Bars,	5 Bars,	6 Bars,	7 Bars, 8 Bars, 9 Bars, 10 Bars.

So that if you should meet with a Semibreve Rest, you remain silent as long as you would be playing a Semibreve in the piece you are performing; if with a Minim, as long as a Minim would take up in playing, and so on for the rest.

A Point or Dot following any Note or Rest, makes such Note or Rest half as long again as it otherwise would be were there no Dot annexed to it, which may be seen in the following Example.

Dotted Semibreve.	Minim.	Crotchet.	Quaver.	Semiquaver.	Demisemi.	Rests Dotted.
equal to	equal to	equal to	equal to	equal to	equal to	equal to

A double Dot added to a Note or Rest makes either of them three quarters longer.

A single Stroke or a Bar | drawn across the five lines is to divide the Measure, and to distinguish one Bar from another.

A double Bar || is used to divide the Airs, Songs, &c., into longer parts.

A Repeat :||: or § signifies that such a part is to be played twice over.

A Slur drawn over or under any number of Notes, signifies that the sound is to be continued from one Note to another, tonguing only the first Note in each Slur.

A figure 3 placed over or under any three Notes of the same name, imports that they are to be played in the time of two.

A figure 6 placed in the same manner, signifies that they are to be played in the time of four.

A figure 9 signifies that they are to be played in the time of six of the same kind.

A Dot with a circular stroke  signifies a pause on the Note or Rest, over or under which it is placed ; sometimes it is termed a Hold, and sometimes shows the final ending of a piece.

Staccato marks, marked thus     or     signify that the Notes over which they are placed should be played with spirit and taste, and held only half their time ; the remaining part being made up by an imaginary Rest between each Note, of half their value.

A Direct, marked *W* at the end of the five Lines, is used as a guide for the eye to the first Note in the following Line.

The letters *tr* over or under any Note, signify you are to perform a Shake on that Note.

The letters *bt.* in like manner, signify you are to perform a Beat on that Note.

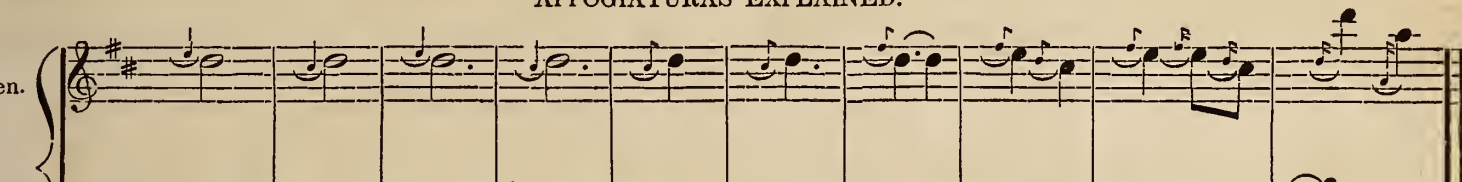

This mark  louder by degrees ; this  gradually softer ; and this  is called a Swell, which is executed by beginning quite *piano*, increasing the strength of tone by degrees, and diminishing it almost imperceptibly toward the end.

These marks  are used as abbreviations, and are explained as under, viz. :

CONSTRUCTION OF A SHAKE.

A Shake being a very great embellishment, I shall not pass it over without a few remarks thereon, more particularly as it is so truly necessary to a performer desirous of executing with taste and judgment.

A Simple Shake is only the articulate sound of two Notes put in equal motion.

A Perfect Shake is composed of three Diatonic Notes ; the first of which is called the Preparative Note, and the two last its Resolution.

Let us suppose the Note to be shaken to be A ; we must in that case prepare the Shake by first sounding B, which is termed the Preparative Note ; then the two Notes, A and B, should be put into equal motion, but not so rapidly as to prevent the ear from distinguishing them ; this being done, we next come to the Resolution of the Shake, which is made by adding two Notes at the conclusion ; and as A was the Note fixed upon to be shaken, G and A must be heard at the conclusion of the Shake, and rather slower than the Shake itself ; as in the following example :—

A SCALE OF THOSE SHAKES WHICH INTRODUCE ADDITIONAL KEYS.

N. B. This Scale will do for a four-keyed as well as a six-keyed flute, by beginning with the second shake, and taking no notice of the two bottom keys which are cut by a double line.

N. B. For the rest of the shakes, you must refer to the preceding Scale of shakes, which, with the above, includes all the shakes which are useful and good on the German flute, from one to six keys.

Wherever you see the letters tr against a figure or key, that figure or key against which they stand represents the hole on which you are to perform your cadence.

MODES, GENERALLY TERMED KEYS.

A piece of Music is not supposed to be a Major or Minor Mode, from the number of Flats and Sharps you see at the beginning, for it frequently happens that you see one, two, and three Flats in the Clef, and yet the piece is in a Sharp Key, or Mode. In order, therefore, to determine this, you must always refer to the Key Note, which is the last of every piece; reckoning by Semitones from that to its Third inclusively; if there should be five Semitones, the Air or Lesson is in a Sharp Key, or the Major Mode; if but four, it is in a Flat Key, or Minor Mode.

EXAMPLE IN THE KEY OF C MAJOR, AND A MINOR.

Key Note.	Its Third.	Proof by Semitones.	Key Note.	Its Third.	Proof by Semitones.
C Major.	Major Third.	1, 2, 3, 4, 5.	A Minor.	Minor Third.	1, 2, 3, 4.

An attentive person may easily perceive by the above example, that the two Notes which form the Minor Third are a Semitone nearer to each other than those which form the Major Third; and it is by this that you are to determine whether a piece is in the Major or Minor Key.

The Major Key of C, being the first Major Key on a Flute with additional Keys, (C \natural being the lowest Note thereof,) I shall begin with the aforesaid Key, or Mode, and give you the name of each interval therein contained.

FURTHER ELUCIDATION OF THE MAJOR KEY OF C.

Whole Tone. Whole Tone. Semitone. Whole Tone. Whole Tone. Whole Tone. Semitone.

The above eight Notes are separated by seven Intervals, called Semitones, or half Tones; the Interval from the third to the fourth, and also that from the seventh to the Octave are Semitones; the other five, viz., from C to D; from D to E; from F to G; from G to A; and from A to B, are whole Tones; and, therefore, Notes placed in the order of the above Scale constitute the Diatonic Gender, or that which is composed of Tones and Semitones.

The Chromatic Gender is composed of Semitones only.

The above will stand as an Example for all sharp Keys, or Modes; therefore, whatever Note you think proper to fix on for your Key Note, if in a Sharp Key, should have the same Diatonic progression in its octave as the above Key opens to view; and in order to render it conformable thereto Flats and Sharps are introduced accordingly, so as to cause the Semitones to fall between the third and fourth, and the seventh and Octave.

Here follows a Table of Sharp Keys, whose Octaves are conformable to the foregoing gamut.

SHARP KEYS.

Sharps engender, or are declined by Fifths; so that if there be but one Sharp to a piece of Music it must be F \sharp ; if two, F \sharp , and C \sharp ; if three, F \sharp , C \sharp , and G \sharp ; if four, F \sharp , C \sharp , G \sharp , and D \sharp , &c., which may be seen in the foregoing Table.

Flats are declined by Fourths. If one Flat be prefixed to a piece of Music, it must be B \flat ; if two, B \flat , and E \flat ; if three, B \flat , E \flat , and A \flat , &c., &c.

MINOR, OR FLAT KEY.

The order of the Minor differs from the Major, in ascending, only in its Third being Flat; but in descending, the sixth and seventh are made Flat also; which is fully demonstrated in the following Example. Sometimes in descending you will meet with a sharp Seventh.

MINOR OF A, OR FLAT KEY.

1. 2. \flat 3d. 4. 5. \sharp 6th. \sharp 7th. 8. 8. \flat 7. \flat 6. 5. 4. 3. 2. 1. Sometimes thus.

THE DOUBLE TONGUE.

The chief difficulty in acquiring this, is in the action and reaction of the tongue against the roof of the mouth, pronouncing at the same time the words Tootle Tootle to yourself, and carefully observing to sound the Notes clearly and distinctly; in order to obtain which, you must practise for a considerable time the following Lessons, carefully observing that your tongue and fingers move together, which is very essential.

A FEW CURSORY REMARKS ON AN EIGHT KEYED FLUTE,

IN WHICH ARE SHOWN THE ADVANTAGES TO BE DERIVED FROM AN INSTRUMENT OF THAT DESCRIPTION.

The more perfect the intonation of any instrument is, the more valuable it becomes. An eight keyed Flute has many advantages in that respect which a five or six keyed instrument is deficient in; for which reason, in my opinion, it is preferable to either of the latter. I am fully aware that it will be said, in answer to this assertion of mine, that even a six keyed instrument does not answer so well as a five; then how should an eight? To such I beg leave to reply, that if a Flute is not made with patent keys, their observation may be well founded; but if, on the contrary, an instrument is made with patent keys, and care is taken in the well fitting them, I must entirely disagree with them in their assertion. As a further proof of my opinion respecting an eight keyed Flute being well founded, I have played on one of that description a considerable time; my profession obliges me to carry it with me to different parts of the town, by which means it is rendered more liable to accidents, and I never found it out of order. Suffice it to say, that if one key can be made so as to stop closely, I am very confident, with great care on the part of the Flute maker, an eight keyed Flute can be made to stop as well; it is as little liable to injury as a five or six keyed one, and at the same time superior, being more perfect.

A SHORT DESCRIPTION OF AN EIGHT KEYED FLUTE.

As the space I have allotted will not admit of my entering into a long detail on the subject before us, I hope the few following lines, with the Examples annexed, will be found fully sufficient to answer every purpose required. I have endeavored to lay them down in as plain a manner as possible, and I hope they will be found of utility to every gentleman who plays on an instrument of the above description.

The difference between a six and an eight keyed Flute consists, first, in the latter having a Key between the first and second holes, on the same side as the G# Key, which is used generally for the Shake on B \natural , where C is natural; and also in certain passages of Music which are rendered easier thereby. Secondly, in having a long Key on the opposite side of the F \natural Key, which is brought up to the middle of the G# Key, and made use of with the little finger of the left hand, in those passages which will not admit of the common F \natural Key; by which means you have a fine F \natural in a beautiful Adagio, &c., where, (were it not for the aforesaid long Key,) you must often finger it after the manner of a Flute with only one Key; by which method of fingering, the intonation, to a nice ear, is certainly not so fine. This last mentioned Key is also used with great effect in forming the Resolution to the Shake on F \natural , in a Key where E is flat, and which cannot be performed so well on any other kind of a Flute. All these, without adding any other, are, I think, very cogent reasons for giving the preference to an eight keyed Flute.

I shall now proceed to give you a few plain Examples introduced in this work, wherein the two above mentioned Keys are used with propriety and effect; and if proper attention is paid to them, they will be found fully sufficient to enable the Pupil to know when to make use of, and when to reject, the aforesaid Keys. N. B. Sometimes the Key for the Shake on B \natural , where C is natural, is made on the same side of the Flute as the B \flat Key; but being in that case a long Key, it is very liable to injury; for which reason I prefer the method as above described. I have seen several of the long Keys, for the last mentioned Shake, bent, and also broken, in the unscrewing of the second joint of the Flute, and by being carried in the pocket.

WRAGG'S FLUTE INSTRUCTOR.

N. B. In the following Example, the short extra Key is introduced in the Shake on B \sharp , which is performed by stopping the first hole, and shaking the said Key with the third finger of your left hand, concluding with the Key down.

EXAMPLES WHEREIN THE SHORT EXTRA KEY IS USED IN THE SHAKE ON B \sharp .

In the above Example, wherever a Star is found over a C \sharp , you must stop the first hole of your Flute, and press the short extra Key with the third finger of the left hand, which produces the Note.

AN EXAMPLE WHERE THE LONG F \sharp KEY IS USED WITH FINE EFFECT IN THE SHAKE ON F \sharp , IN A KEY WHERE E IS FLAT.

N. B. This last Example cannot be done with effect on any other kind of Flute.

DIRECTIONS FOR BEATING TIME.

A knowledge of this is so essentially necessary to every person who is desirous of playing in concert, that it must not be too long neglected; it should be studied as soon as the Pupil has acquired so much knowledge of his instrument as to be able to play any little easy piece at sight. To attempt it before he can do that, would be very absurd; for instead of facilitating, it would only retard him in his progress.

I have before observed, that Time is either Common or Triple; consequently there can be but two ways of beating it. In both Common and Triple Time the foot goes down at the first Note in every Bar; the difference being in the raising thereof. In Common Time the foot is half up and half down; but in Triple Time, where the Music consists of three Minims, Crotchets, Quavers, &c., in a Bar, the foot goes down, as in Common Time, at the first Note, and rises at the expiration of two thirds of the Bar, as in the following Example:

COMMON TIME.

N. B. When you meet with these marks, $\frac{6}{4}$ and $\frac{12}{8}$, you must beat as in this last Example, viz., half down and half up.

TRIPLE TIME.

PRELUDIO.

Andantino con Affettuoso.

DUO I.

J. WRAGG.

The first system consists of two staves of music. The upper staff features a complex melodic line with many sixteenth and thirty-second notes, including trills and slurs. The lower staff provides a harmonic accompaniment with a similar rhythmic pattern. Dynamics markings include *f* (forte) and *p* (piano).

The second system continues the musical piece. It features similar melodic and harmonic textures. Dynamics markings include *p* (piano) and *f* (forte). There are also some slurs and accents present.

Allegro.

J. WRAGG.

DUO II.

The third system is marked "Allegro." and "Duo II." It consists of two staves. The music is characterized by frequent trills, indicated by "tr" above notes. The tempo is faster than the previous sections.

The fourth system continues the "Allegro" section. It features a mix of trills and slurred melodic lines. The notation is dense with sixteenth notes.

The fifth system continues the "Allegro" section. It features a mix of trills and slurred melodic lines. The notation is dense with sixteenth notes.

The sixth system continues the "Allegro" section. It features a mix of trills and slurred melodic lines. The notation is dense with sixteenth notes.

HUNTING PIECE.

* Finger the B sharp by stopping 2d, 3d, 4th and 5th holes, D sharp Key up.

The first system of music consists of two staves. Both staves are in treble clef with a key signature of one sharp (F#). The music is written in a common time signature. The upper staff contains a melodic line with eighth and sixteenth notes, often beamed together. The lower staff provides a harmonic accompaniment with similar rhythmic values. There are repeat signs and trill markings (tr.) throughout the system.

I am now going to introduce the Learner into another Key, called the Key of G Major; and the only difference in this and the preceding Key is, in there being only F sharp in the Clef, consequently every C must now be played Natural, viz: by stopping the 2nd, 4th, 5th and 6th holes, pressing at the same time the D sharp Key with the little finger of the right hand, which Key is next to the sixth hole of your Instrument.

KEY OF G MAJOR, F# IN THE CLEF.

PRELUDIO.

The second system begins with a 'PRELUDIO' in 4/4 time, featuring a single melodic line with a key signature of one sharp (F#). This is followed by a 'DUO XVIII.' section, also in 4/4 time and marked 'Andante.', consisting of two staves. The upper staff continues the melodic line, while the lower staff provides a harmonic accompaniment. The piece concludes with a signature 'J. WRAGG.' and a final cadence.

The next key I shall introduce to the learner is the key of C Major, or natural key, from its following more closely the order of nature. The last key had F# in the clef, which is now omitted; consequently every F must here be played natural instead of sharp; which is fingered by stopping the first, second, third, fourth, and fifth holes of your flute, pressing at the same time the F $\frac{1}{2}$ key with the third finger of the right hand, which key is placed between the fifth and sixth holes of your instrument. If you also press with your little finger the D# key at the same time, it will make the note more sonorous; but this may be omitted in quick passages. If your flute have not the additional keys, you must refer to the chromatic scale for the said F $\frac{1}{2}$, both above and below; but if on the contrary, for the highest F $\frac{1}{2}$ refer to the scale of notes affected by the additional keys.

Maestoso.

First system of musical notation for two flutes. The top staff is in treble clef and the bottom staff is in alto clef. The music features eighth and sixteenth notes with various articulations. Dynamics include *p* and *f*.

RONDO.

J. WRAGG.

DUO XXXIV.

Spiritoso.

Second system of musical notation for two flutes. The top staff is in treble clef and the bottom staff is in alto clef. The time signature is 2/4. The music consists of eighth and sixteenth notes with various articulations.

Third system of musical notation for two flutes. The top staff is in treble clef and the bottom staff is in alto clef. The music consists of eighth and sixteenth notes with various articulations.

Fourth system of musical notation for two flutes. The top staff is in treble clef and the bottom staff is in alto clef. The music consists of eighth and sixteenth notes with various articulations.

CODA.

Fifth system of musical notation for two flutes. The top staff is in treble clef and the bottom staff is in alto clef. The music consists of eighth and sixteenth notes with various articulations.

J. WRAGG.

DUO XXXV.

Larghetto.

Sixth system of musical notation for two flutes. The top staff is in treble clef and the bottom staff is in alto clef. The time signature is 6/8. The music consists of eighth and sixteenth notes with various articulations.

The main musical score consists of six systems of two staves each. The first system shows a flute melody with slurs and accents, and a piano accompaniment with chords and moving lines. The second system continues the melody with slurs and accents, and the piano accompaniment has some rests. The third system features a forte (*f*) dynamic in the flute and piano accompaniment, followed by a piano (*p*) dynamic. The fourth system continues with *f* and *p* dynamics. The fifth system shows a piano (*p*) dynamic in the flute and piano accompaniment, ending with a pianissimo (*pp*) dynamic. The sixth system concludes the piece with a final cadence in both parts.

J. WRAGG.

DUO
XXXVI.

The duo section is for two flutes in 6/8 time. It consists of two systems of two staves each. The first system is marked "Siciliano Andantino." and the second system is marked "Adagio." The music features a steady eighth-note accompaniment in the right hand and a more melodic line in the left hand.

The final musical system consists of two staves. The first staff continues the melodic line from the duo section. The second staff has a marking "A Tempo." and continues with a steady eighth-note accompaniment, ending with a final cadence.

XXXIX.

Allegro.

Two staves of music for flute. The top staff is marked "PRELUDIO." and the bottom staff is marked "DUO XXXIX. Allegro.". The key signature has one flat (B \flat). The time signature is 4/4. The music features sixteenth-note patterns with slurs and accents.

The main musical score consists of six systems, each with two staves. The key signature is one flat (B-flat) and the time signature is common time. The music includes various rhythmic patterns, such as eighth and sixteenth notes, and features trills and slurs. The notation is arranged in a grand staff format with two staves per system.

MARCH.

J. WRAGG.

DUO

Maestoso.

XL.

The duo section consists of two staves in 4/4 time. The tempo is marked 'Maestoso'. The music is in a key with one flat (B-flat). The notation includes eighth and sixteenth notes, and features a variety of rhythmic patterns.

XLII.

Spiritoso.

Should the student find the following Duo too difficult, I refer him to the Supplement and Appendix for more pieces in the same key.

This Lesson is intended for the C natural key below.

N. B. The small notes must be played, if your Flute has not the C natural key.

DUO
XLIII.

Moderato.

J. WRAGG.

This page contains ten systems of musical notation, each consisting of two staves. The music is written in a key signature of one flat (B-flat) and a common time signature (C). The notation includes various rhythmic patterns, such as eighth and sixteenth notes, and rests. Trills are indicated by the letters 'tr' above notes. The piece concludes with double bar lines and repeat dots at the end of each system.

We are now going into two flats, called the key of B \flat , or Major of B \flat . The foregoing key had only one flat in the clef, which fell on B, but now, if you refer to the clef, you will find an additional flat, which falls on E; you must, therefore, play every E flat, as well as the B \flat ; which E \flat is made by stopping the six holes of your flute, and pressing the D \sharp (or E \flat) key with the little finger of your right hand. This serves for the lower E \flat and its octave; but for the highest E \flat , refer to the chromatic scale.

MAJOR OF B FLAT, B \flat AND E \flat IN THE CLEF.

You are now going into the key of E flat. I recommend you to look at the clef, where you will find B \flat , E \flat , and A \flat ; which is one flat more than you had in your last key. You must now play every A flat; which is done by stopping the first, second, and third holes of your flute, and pressing at the same time the A \flat key with the little finger of your left hand; which key is situated between the third and fourth holes of your instrument. This will serve for the lower A \flat and its octave above; but for the highest A \flat , refer to the chromatic scale. If your flute has not the additional keys, you must refer to the chromatic scale for every A \flat .

Adagio.

The musical score is written for two flutes in A major (two sharps) and 4/4 time. It is marked 'Adagio' and 'Duo LXII'. The score consists of six systems of two staves each. The first system begins with a treble clef, a key signature of two sharps, and a 4/4 time signature. The tempo is 'Adagio'. The first system includes dynamics of *p* and trills (*tr*). The second system includes a forte (*f*) dynamic and trills. The third system includes dynamics of *f*, *p*, and *pp*, followed by a repeat sign and a *f* dynamic. The fourth system includes dynamics of *p*, *f*, and *p*. The fifth system includes trills and dynamics of *p*, *f*, and *f*. The sixth system includes trills and dynamics of *f*, *p*, and *f*. The piece concludes with a double bar line and a repeat sign.

Musical score for two staves in B major, 2/4 time. The first staff has dynamics *p*, *f*, *p*. The second staff has dynamics *p*, *f*, *p*.

For the benefit and improvement of those gentlemen who are studious, I shall now introduce the key of B major, five sharps in the clef; which is one more than in the preceding key, and which falls on A. You must now finger every A sharp, by stopping the first and second holes, pressing at the same time the A# key with the thumb of your left hand. For a one-keyed flute, refer to the chromatic scale for A#.

First system of musical notation for Air XIV, featuring a treble clef, a 2/4 time signature, and a key signature of one sharp (F#). The melody is characterized by sixteenth-note patterns.

MINOR.

Second system of musical notation for Air XIV, showing a change in key signature to one flat (Bb) and the continuation of the sixteenth-note melody.

Third system of musical notation for Air XIV, continuing the sixteenth-note melody in the Bb key signature.

Fourth system of musical notation for Air XIV, including the dynamic marking 'p' and the instruction 'Con Espress.'.

Fifth system of musical notation for Air XIV, ending with the instruction 'D. C.' and the tempo marking 'Adagio.'.

Con Affetto.

AIR XV.

First system of musical notation for Air XV, featuring a treble clef, a 4/4 time signature, and a key signature of one sharp (F#). The melody is composed of quarter and eighth notes.

Second system of musical notation for Air XV, continuing the melody with various note values and rests.

Third system of musical notation for Air XV, concluding the piece with a final cadence.

The first section consists of three staves of music. The first staff begins with a treble clef, a key signature of one sharp (F#), and a common time signature. The melody is composed of eighth and sixteenth notes, with some rests. The second and third staves continue the melody with similar rhythmic patterns and some slurs.

AIR XVI. *Amoroso.*

AIR XVI. *Amoroso.* This section is in 4/4 time and consists of four staves. The first staff is marked with a treble clef, a key signature of one sharp, and a 4/4 time signature. The tempo is marked *Amoroso.* The melody features a mix of quarter and eighth notes, with some slurs and accents. The subsequent staves continue the piece with similar rhythmic and melodic elements.

WALTZ.

AIR XVII. *Allegro.*

AIR XVII. *Allegro.* This section is in 3/8 time and consists of three staves. The first staff is marked with a treble clef, a key signature of one sharp, and a 3/8 time signature. The tempo is marked *Allegro.* The melody is characterized by eighth notes and rests, with some slurs. The second and third staves continue the piece.

MINOR.

MINOR. This section begins with a key signature change to G minor (one flat, F). The notation continues on the third staff of this block, showing the change in mood and key.

MAJOR.

This section contains four staves of musical notation. The first three staves are in G major (one flat, treble clef). The fourth staff is in D major (two sharps, treble clef). The music consists of eighth and sixteenth notes with various ornaments and slurs.

MUSETTE.

Allegretto.

AIR XVII.

This section contains five staves of musical notation for 'AIR XVII. MUSETTE.' in 4/4 time. The tempo is marked 'Allegretto.' The music is in G major and features a mix of eighth and sixteenth notes, with some trills and slurs. The piece concludes with a double bar line and the word 'Segue.' written above the final staff.

Allegro.

AIR XIX.

This section contains three staves of musical notation for 'AIR XIX.' in 6/8 time. The tempo is marked 'Allegro.' The music is in G major and features a mix of eighth and sixteenth notes, with some trills and slurs. The piece concludes with a double bar line.

Detailed description: This musical score is for the piece 'ZITTI, ZITTI' from The Barber of Seville, arranged by T. Lindsay. It is in 4/4 time with a key signature of one flat. The tempo is 'Allegro ma non Troppo'. The score consists of seven staves of music. The dynamics are marked as p (piano), f (forte), ff (fortissimo), and Dolce (softly). The piece features a variety of rhythmic patterns, including eighth and sixteenth notes, and ends with a final flourish.

A series of ten musical staves for flute, featuring complex rhythmic patterns, slurs, and dynamic markings such as *f*, *fz*, and *ff*. The music is written in a single treble clef with a key signature of one flat (B-flat). The first staff begins with a series of eighth-note chords. The second staff includes a dynamic marking of *f* and a *fz* marking at the end. The third and fourth staves continue with similar rhythmic patterns. The fifth staff features a triplet of eighth notes. The sixth staff has a dynamic marking of *f*. The seventh staff has dynamic markings of *ff* and *fz*. The eighth staff has a dynamic marking of *f*. The ninth and tenth staves conclude the piece with a final cadence.

“SOUNDS SO JOYFUL.” (FROM LA SONNAMBULA.)

Allegro Moderato.

Two musical staves for flute, starting with a 4/4 time signature and featuring a tempo marking of *Allegro Moderato*. The music is written in a single treble clef with a key signature of one flat (B-flat). The first staff begins with a series of eighth-note chords. The second staff includes a triplet of eighth notes. The piece concludes with a final cadence.

The musical score is written for a flute in G major (one sharp) and 2/4 time. It consists of ten staves of music. The first staff begins with a treble clef and a key signature of one sharp (F#). The music features a variety of rhythmic patterns, including eighth and sixteenth notes, often grouped with slurs. Dynamic markings such as accents (>) and 'Ten.' (Tenero) are used throughout. A section marked 'Piu Allegro.' (Faster) begins in the third staff, characterized by more rapid sixteenth-note passages. The score includes several triplet markings (3) and concludes with a double bar line at the end of the tenth staff.
