# THE KING OF PIANO INSTRUCTORS.

# NATIONAL SCHOOL FOR THE PIANO-FORTE.

BY W. F. SUDDS.

It is designed, not only for those who desire to become professional pianists, but also for those who aim to become accomplished amateurs, while for those who are compelled to become self-taught players, it will be found the most valuable aid ever published. We would call attention briefly to the following points:

1. It teaches the first principles of music, partly by means of musical writing lessons, to be filled out by the pupil, affording a much clearer and easier way of overcoming first difficulties, than other works of the kind contain.

2. The exercises are more carefully graded, introducing the pupil to but one new feature at a time, while in each case the necessary explanations, which are usually left for the teacher to give orally, are, as far as possible, written in detail.

3. The art of fingering, touch, accent, etc., is more fully treated than in average works.

4. It contains full and complete instructions in Harmony and Thorough-bass, subjects all-important, and yet scarcely hinted at in other Piano-forte Methods.

5. It instructs the student in the principles of vocal accompaniment, including playing from a vocal score, thereby preparing him to be an efficient church organist, when necessary; this too, is peculiar to the work.

INCOMPARABLY THE BEST.

Endorsed by Pious and Profession.

6. It is the only piano school which treats at any length, on the proper use of the so-called, and much abused, "lead pedal." On this subject alone, the work is of priceless value to the young student.

7. We find among its contents, the subject of musical form, phrasing, etc., made plain and interesting to the pupil.

8. Aside from more than the usual amount of so-called technical matter, there is interspersed a valuable repertoire of piano music, selected from the works of Schubert, Mendelssohn, Mozart, Bach, Beethoven, Rubinstein, Morzkowski and others, with explanatory notes concerning the peculiarities and proper performance of each.

9. And last but not least, is included a dictionary of music, with proper pronunciation of names and musical terms, with biographies of prominent ancient and modern musicians and composers.

That the "National School" opens to the student the shortest and best possible road to proficiency, is beyond a doubt, especially when we consider the well-known ability and recognized talent of the editor, as evinced in former works. And after a glance at the foregoing, it is almost superfluous to say that this book contains more than double the amount of musical information found in any other work of the kind.

The following are selected from hundreds of testimonials fully endorsing the above claims:

### What New England says:

- THOS. P. J. MAGORY, Bath, Me.**  
The "National School" is rightly named. From what I know of your work in another department, "Anthem Gems," I had reason to expect much in your new work, and my expectations are more than met. I find so many new features and such mastery treatment of the whole subject that I can only say it is just what we teachers, and our pupils, need. No instruction book that I am acquainted with embraces so much, or so clearly defines what they do embrace. I hope it may meet the success it merits.
- JAMES CROSBY (Boston Conservatory of Music), Boston, Mass.**  
I find "National School" a useful and well-planned work, well adapted for its purpose and a welcome addition to the many excellent methods that have been published here and in Europe. I wish you all success.
- The First, Boston, Mass.**  
An exhaustive and valuable book.
- S. SELLEN, New Haven, Conn.**  
Our teachers consider "National School" the best of all piano schools published in the United States.

- MERRY ROBINSON, Easton, Pa.**  
I have been very partial to Richardson's justly popular method, but hoped some time to see a method more complete in some respects and with clearer explanations to scholars of many printing details. I find that "National School" has all the merits of Richardson's, with the following additional ones, viz.: Entertaining and instructive details; remarks upon the proper use of the pedals; clear explanation of the various embellishments; latest studies of modern masters, Heller, Kohler, List, and others; the exercises upon accent and remain upon vocal accompaniment; the excellent musical and biographical dictionary and, by no means the least important, the fine treatise on Harmony with its numerous examples.
- JAN N. BUCK, Philadelphia, Pa.**  
The "National School" has been examined at length. It gives me pleasure to endorse its completeness and the clearness with which all the rudimentary points have been therein set forth, as well as the judgment displayed in the selection of the various studies, etc. I have nothing but praise, furthermore, for the writing lessons, the several dictionaries, and the short but satisfying treatise on harmony.
- A. H. EYENGER, Allentown, Pa.**  
"National School" is a very thorough and minute work. It certainly contains everything that can be desired by teacher or pupil.
- ADAM GIBBEL, Philadelphia, Pa.**  
In every way I find "National School" the most practical work for that kind of instrument—the piano—that has ever been brought to my notice, and I feel that I can say confidently, and without reservation, that it is not only a thorough instructor, but also an encyclopedia, which I can recommend most heartily to the profession.
- A. H. ROSEWALD, Philadelphia, Pa.**

- MUSIC AND DRAMA, New York.**  
"National School" will prove an exceedingly useful work, containing, as it does, a vast amount of information in a condensed form; and most of the studies and pieces are such as will prove useful to the student in forming the hand and acquiring "touch."
